I acknowledge that I have been notified of the grading and drainage plan elevations for lot # . I will provide this information to the property owner or the end user. It is the developer's responsibility to forward this information to the homeowner. This information is provided by SPID as a courtesy only. It is the responsibility of each developer and home owner to conform to the approved grading and drainage plan for the approved subdivision for their individual lot. The driveway approach can not interfere with the storm drain.

SIGNATURE

☐ This property has an EASEMENT and I acknowledge that I have been notified of the easement. I will provide this information to the property owner or the end user. It is the responsibility of each home owner to conform to the easement boundaries. Which states no fencing is allowed within the easement. SIGNATURE

CONDITIONS, RESTRICTIONS OR COMMENTS OF CONNECTION:

SPID MUST GIVE APPROVAL PRIOR TO ISSUANCE OF OCCUPANCY PERMIT BY TOOELE COUNTY TO MAKE SURE ALL CONSTRUCTION PUNCHLIST ITEMS ARE COMPLETED

As part of Stansbury Park Improvement District's culinary water supply and cross connection program, a dual check valve is installed in the meter box creating a "closed system". The dual check valve, therefore, requires the need for the property owner to have property protection against thermal expansion. An approved backflow assembly is also required on any sprinkler system connected to the District's water supply. **No construction shall commence without first having located, verified and exposed the water and sewer laterals. If laterals do not exist, the property owner shall incur all costs associated with the installation of such.** Water and sewer impact fees and connection fees are listed below. **All fees must be paid upfront.** Meter boxes are restricted from being placed in driveways. There will be a \$45.00 fee if water can needs to be moved. A 24-hour notice is required for mandatory water and sewer connection inspections.
